

A new view of God
AND ITS EFFECT
on well-being

When most people think about life-changing moments, they may not think of a lecture on Christian Science. That wasn't why our speaker, Phillip Hockley, attended a lecture for the first time; he didn't expect to walk out a new person. But Phillip found something in that lecture that was indeed life-transforming. Christian Science gave him a new view of God that he'd not had before: a view of God as Love itself. He also discovered that this loving God was not the source of his troubles (which were many) but the solution to them. His life began to improve quickly after that and he became a healthy man after many years of suffering.
