

A man with glasses, wearing a dark jacket, is sitting in a field and reading a Bible. The sun is low in the sky, creating a warm, golden glow. The Bible he is holding has "Holy Bible" written on the cover.

“Effective prayer: Finding healing and wholeness in Divine Love”

Bobby Lewis, CS, our guest speaker, is a Christian Science practitioner. In this lecture, we explore practical and transformative prayer, as taught in Christian Science. Through compelling personal stories, Bobby Lewis illustrates how the spiritual laws of divine Love operate—and how prayer brings us into alignment with these laws. Whether you're feeling lost or struggling with illness, effective prayer can restore clarity, peace and wholeness in every area of life.

Bobby Lewis, CS
